

THE NEW ENTERPRISE

Madison, Florida.

PUBLISHED WEEKLY.

Entered at the Madison Post Office, as Second Class Matter.

COLUMBUS B. SMITH, Editor.

Subscription, \$2.00 per year. Advertising rates made known on application. Correspondents will please write on only one side of the paper. We must have the name of every contributor, not for publication, but that we may know the correspondence is authentic. All anonymous communications will find a home in the waste basket. Address all communications to THE NEW ENTERPRISE, Madison, Florida.

Official Organ County Commissioners

THURSDAY, AUGUST 13, 1933

Several political boomlets seem to have collapsed within the past few weeks. Nothing further has been heard of the Howard boom, for instance.

Gainesville is to have a coffin factory. Hurry up, Mr. Manufacturer, there will be plenty of orders for you about July 1904 when the political primary is over.

No office holder of the present time need expect to keep his job without a scuffle for it next year. Comptroller Croom is to have a formidable opponent in the person of Mr. Dorman of Suwannee county.

The manner in which those Tampa people punished the negro brute is worthy of attention. Perhaps they have discovered the best punishment for crimes such as the negro was charged with.

The prospects for a tremendous cotton crop in this county were never better, and unless heavy rains play havoc during the next few days Madison county farmers will have plenty of cash this fall and winter.

There is one good thing to be said about a multiplicity of candidates, and that is the Executive committee when it meets to make the assessments will be able to get enough money out of all of them to run the primary in first-class style.

Cardinal Guiseppe Sarto, patriarch of Venice, Italy, was elected Pope to succeed the lamented Leo XIII. Tuesday last. The new Pope assumed the title of Pius X. He is 68 years of age, and reported as most liberal in his views—more so, in fact, than his predecessor.

Duval county has a new spectator of the criminal court, and he is proving the truth of the old saying about the new broom. The saloons of Jacksonville were actually closed up tight last Sunday—the first time in many years, we dare assert—such a condition has existed.

To be ejected from a train because he didn't have a ticket or cash wherewith to pay his fare was the fate which befell U. S. Senator Ben Tillman of South Carolina a few days ago. The senator found that a pick-pocket had "touched" him for his cash as well as his railroad ticket, and the conductor (who must certainly not read the papers), not knowing his distinguished passenger, invited him to get off. We imagine the blow to the pride of the Senator was not being recognized was even greater than his financial loss.

It is really amusing to note at this far distant day how glibly and fluently some papers speak with certainty of the election of their favorite candidates. As the Pensacola Press remarks, "it will not be amiss to remind them that the only time a candidate is dead sure of an office is when he has taken his seat."

Family Jars

are more often the result of indigestion than anything else. Dyspeptics are usually irritable, nervous, cranky individuals who make trouble for all those around them. Dr. Loyal Ford's Dyspeptoid makes the stomach right and restores health and happiness in the household. Sold by D. G. Smith.

The battle of ballots goes merrily on for the Times-Union commissioners to the St. Louis fair. At the last count the leading candidate—for the East Coast section—had received more than 28000. It will not be surprising if the total vote for all candidates exceeds two million at the close of the contest.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by B. F. Moseley.

Adjutant-General Foster has issued his order and the soldier boys of the State will go into camp of instruction at Jacksonville on Sept. 8th there to remain for eight days. From the order of the adjutant-general it is plainly seen that the encampment will be one of work and instruction, and not a season of fun and carousal as heretofore.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky. for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Sold by D. G. Smith.

All eyes will be focused on and all ears turned toward Punta Gorda on the 25th, for that is the day on which the big political picnic will be held. Candidates Stockton and Taliaferro have already signified their acceptance of an invitation to be present, and the former gentleman says he intends to talk right out and say a few things. Governor Jennings has not up to this writing definitely accepted the invitation to be present.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "my doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by B. F. Moseley druggist. Price 50c & \$1.00. Trial bottles free.

A gentleman named Lewis, from somewhere or other, says an ice cap is forming at the North Pole that may cause the earth to "turn turtle" at any moment. Incidentally the said Lewis has formed a company which controls lands where the people of the earth may flee for safety before the catastrophe occurs, and where security is guaranteed—at so much per, of course.—Pensacola Journal.

You Know What You Are Taking

When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay. 50c.

The present attorney-general, Judge Whitfield, it is said, will not stand for re-election in next year's primary, but will retire to private life as soon as he has completed his present term of office. Probable candidates for the place so far mentioned are Alfred St. Clair Abrams, of Lake county, Judge Sharon of Gadsden, and Judge Jno. L. Doggett of Jacksonville. It is more than likely that by the time the campaign really opens there will be others.

Watch For a Chill.

However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine by its prompt stimulative action on the liver, drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c at W. B. Davis.

This is a Georgia boy's account of his father's entrance into politics: "Dad has took the stump. I dunno who run him up it—but he's on it, jest the same. Dad is after a office. One paper says he is a born liar; 'nother one says he stole a horse, an' 'nother one says he run off with a widder. When ma heard all them things she said she thought that she knowed him before; but she's glad she's done found him out at last, an' just wait till she ketches him again!"

Physician and Druggist.

Ford & Sturgeon, a prominent drug firm at Rocky Hill station, Ky., write: "We were requested by Dr. G. B. Snigley to send for Herbine for the benefit of our customers. We ordered three dozen in December, and we are glad to say, Herbine has given such great satisfaction that we have duplicated this order three times, and to-day we gave your salesman another order. We beg to say Dr. G. B. Snigley takes pleasure in recommending Herbine." 50c bottle at W. B. Davis.

There is no denying the fact that the prohibition sentiment is sweeping the State. County after county is calling for elections on the subject. Jackson county will hold its election on the 25th inst., and indications all point to victory for the dry element. Jefferson county has only to pass through the formalities incident to prohibition elections before it will be declared legally "dry," and Columbia county citizens will vote on the question in that county some time next month. The result there, we are told, is somewhat doubtful, but the "dry" people are reasonably sure that the matter will be settled according to their liking.

Do not fail to stand by your own town and community. Don't try to drag everything down because you can't have your own way. Many a section has been kept from prospering because enviousness and jealousy prevented men of mediocre ability from doing their duty. Of course a broadminded person will not let personal feelings against individuals deter him from doing his full share towards the growth and prosperity of his county, town or district. Always do your full duty on all occasions.—De Soto County Advertiser.

Nearly Forfeits His Life.

A runaway almost ending fatally started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and Piles. 25c at B. F. Moseley's drug store.

The DeLand Record has it from absolutely reliable sources that Chas. Dougherty will surely be a candidate for Congress in the next primary from the second district. We really feel sorry for the people of that district. Where there are only three or four candidates one can pick his man without a great deal of trouble, but when the candidates are as numerous as they now seem to be over there, their respective claims for the job are apt to so confuse the average voter that when the time comes to deposit his ballot he will not be able in the allotted time to locate himself.

TOWN TOPICS.

(Continued from Fifth Page.)

Our merchants are now preparing for the fall trade which usually opens up in earnest about Sept. 1st. New goods are being arranged upon the shelves, and the stores are receiving a general cleaning up. We respectfully suggest that it is the wide awake merchant who, having goods to sell, lets the people know about his wares and prices. Plenty of advertising space for sale in the columns of this paper.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine. Sold by D. G. Smith.

Great interest is manifested every Sunday by our citizens in the Times-Union of those days. It is the pretty race for St. Louis Fair Commissioners now being conducted by that paper which proves so interesting, the friends of the young lady candidates wanting to see how their candidate stands. Madison county claims four young lady candidates, and the friends of each of them are doing all that is possible to keep their favorite in the lead.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists and medicine dealers.

FOLEY'S HONEY AND TAR
stops the cough and heals lungs
